

The NeuroScience Center at St. Luke's Episcopal Hospital

Stroke Support Group

St. Luke's Episcopal Hospital, a leader in neuroscience and stroke therapy, is proud to introduce our Stroke Support Group for patients and family members affected by ischemic stroke, hemorrhagic stroke and brain aneurysms.

Please join us each month when St. Luke's will provide an atmosphere of support and education as stroke survivors and medical professionals discuss new and relevant topics.

**2491 South Braeswood
Houston, Texas 77030
6:30 p.m.**

Free parking • Refreshments will be served

All stroke survivors and caregivers are welcome.
For more information, please call 832-355-2187
